Anthem eye refraction and routine eye exam billing information

Published: Feb 1, 2019

Refractions and routine eye exams are **not** covered under medical insurance for Anthem members. These benefits may be available through the member's supplemental insurance. These services must be billed to the supplemental vendor. Check your patient's Anthem ID card for the name of the vendor.

Additional information, including billing modifiers and documentation requirements, will be available at [anthem.com/medicareprovider](https://www.anthem.com/medicareprovider) under *Important Medicare Advantage Updates*.
