Clinical Practice and Preventive Health Guidelines available on the web

Published: Dec 1, 2018

As part of our commitment to provide you with the latest clinical information and educational materials, we have adopted nationally recognized medical, behavioral health and preventive health guidelines, which are available to providers on our website. The guidelines, which are used for our Quality programs, are based on reasonable, medical evidence, and are reviewed for content accuracy, current primary sources, the newest technological advances and recent medical research.

All guidelines are reviewed annually, and updated as needed. The current guidelines are available on our website. To access the guidelines, go to **anthem.com**, and select the **Providers**, and **Providers Overview**. **Select Find Resources for Your State**, and pick **Your State**. From the **Health & Wellness** tab, select the link title "**Practice Guidelines**". You can then choose from Clinical Practice Guidelines, Preventive Health Guidelines, or Behavioral Health Clinical Practice Guidelines.
