AIM Specialty Health sleep disorder management clinical guidelines update

Published: Oct 1, 2018

Effective for dates of service on and after January 28, 2019, CPT code A7047 (oral interface used with respiratory suction pump) will be removed from the AIM Specialty Health© (AIM) sleep disorder management clinical appropriateness guidelines and will no longer apply. AIM is a separate company.

As a reminder, ordering and servicing providers may submit pre-service clinical review requests to AIM in one of several ways:

- Access AIM's **ProviderPortalSM** directly at providerportal.com. Online access is available 24/7 to process orders in real-time, and is the fastest and most convenient way to request authorization.
- Access AIM via the Availity Web Portal at availity.com.
- Call the AIM Contact Center toll-free number: 866-714-1107, 8:00 a.m. - 5:00 p.m.

For questions related to guidelines, please contact AIM via email at aim.guidelines@aimspecialtyhealth.com. Additionally, you may access and download a copy of the current guidelines on AIM's [website](#)

Please note, this program does not apply to the Federal Employee Program® (FEP®).
