Federal Employee Program® specialty pharmacy clinical site-of-care prior authorization review

Published: Oct 1, 2019

The [July 2019 edition of Provider News](#) notified providers that certain Blue Cross and Blue Shield Service Benefit Plans®, also known as Federal Employee Program® or FEP®, (member IDs beginning with an “R”) utilize a **prior approval** process for specific specialty drugs and site of care. The prior approval process identifies members who meet appropriate site-of-care criteria and encourages ordering providers and members to consider using a lower level of care option for specific specialty drugs. There is no claim penalty for site of care under the current prior approval process. FEP will continue to use this process through December 31, 2019.

Effective with dates of service on or after January 1, 2020, Anthem FEP will implement a specialty pharmacy **prior authorization review** process for specific specialty drugs. The prior authorization review will include site-of-care criteria for outpatient hospital-based settings. **As a result of this change, services provided on and after January 1, 2020, without a prior authorization will be denied.**

FEP will continue to review Federal Employee Program coverage guidelines criteria for medical necessity, and Anthem’s clinical guideline, Level of Care: Specialty Pharmaceuticals (CG-MED-83), will be utilized to review site-of-care criteria.

What’s new beginning with dates of service on or after January 1, 2020?

- Prior to administering the drugs noted below in any setting, a prior authorization must be completed in order to evaluate if the drug meets clinical criteria. Anthem FEP will begin accepting prior authorization requests on December 18, 2019, for dates of service on and after January 1, 2020. **Request prior authorization review by calling the Blue Cross and Blue Shield Federal Employee Program Service Benefit Plan at (800) 860-2156.**
- Outpatient hospital-based settings will require a site-of-care review for medical necessity as part of the prior authorization review.

A provider toolkit aligned to Anthem’s clinical guideline (CG-MED-83) will be provided to providers requiring a site-of-care review, either by fax or e-review. For outpatient hospital settings that do not meet clinical criteria, a dedicated clinical team will work with you to identify alternate lower level-of-care sites that can safely administer the drug.

Virginia Provider Communications

In the event that there are no infusion centers within 30 miles of the member's place of residence, or there are no home infusion providers able to service the member's residence, the hospital-based setting will be approved.

- If the prior authorization is denied for either the drug not meeting medical necessity or the site-of-care not meeting medical necessity, providers should follow the disputed claim/service process. To obtain the current process, please contact the Blue Cross and Blue Shield Federal Employee Program Service Benefit Plan at (800) 860-2156.
- Services provided on or after January 1, 2020, without prior authorization will result in a denial of claims payment.

Drugs requiring medical necessity and site-of-care review:

Drug	Code	FEP Coverage Guidelines
(Orencia)	J0129	5.70.18
(Benlysta)	J0490	5.99.01
(Privigen)	J1459	5.20.03
(Cuvitru)	J1555	5.20.08
(Bivigam)	J1556	5.20.03
(Gammaplex)	J1557	5.20.03
(Hizentra)	J1559	5.20.08
